Positive Review Rate

77%

Seller Concentration(SP)

60M

Key Findings

- SP drives ~40% of total sales, creating regional concentration risk.
- Sales drop sharply from Sep-Dec, likely a dataset coverage gap, not demand.
- Credit card is 78% of payments; boleto usage stays steady year-round.
- Top 5 categories drive most revenue, long tail of 60+ categories underperforms

Recommendations

- 1 Expand seller acquisition outside SP to reduce single-state dependency.
- 2 Investigate the Sep-Dec sales cliff before treating it as a seasonal trend.
- 3 Prioritize top 5 categories for inventory and marketing spend.
- 4 Pair review-score analysis with delivery time to target complaint driver.

Data notes and caveats

Late-2016 records are sparse in the source dataset; treat that period's dips as data-coverage gaps, not real demand trends.
